#	Meal	Suggestions/ Comments	Food Service Officer's Response
1	Lunch	Great customer service on serving line. Great food and food stays at right temperature i.e. hot food hot and cold food cold.	Thank you for the positive feedback. I will pass along to our personnel.
2	Lunch	Always enjoy the food here. Would not change a thing.	Thank you very much! I will ensure your comment is passed along to our personnel.
3	Lunch	Good food.	Thank you! We appreciate the feedback.
4	Lunch	Opened at 11:00. Desserts gone by 11:30. Ice cream machine broken.	I will look into why we ran out of deserts so early. Our standard is to always have plenty of all food items for the entire meal. Thank you for bringing this to our attention.
5	Lunch	I live off base. For lunches on base, food tends to be too bland for me. Too loose to pay for it. Use seasonings appropriately. I should be able to say better than "its not terrible".	Sorry to hear that you feel that way. Our CS's work very hard to make sure that our food items are of quality, and directly by the Armed Forces Recipe service and the GO for Green program, ensuring that there is balanced nutrition offered for every meal .
6	Lunch	Breakfast for dinner and maybe extend hours open if possible.	We can look at breakfast items for dinner. Unfortunately we cannot extend the hours of operation. We have to coordinate the hours of operation with our New Leaf civilian staff as well as setting the Culinary Specialist watches. Apologize for any inconvenience. Thank you!
7	Dinner	I approach that dinner should be put together as highly as lunch and breakfast.	You are absolutely correct! We are actively taking care of this issue daily. We appreciate the feedback, as well as your patience as we work to make all meals of equal quality and nutrition.
8	Dinner	Better dinner.	We are actively working to make dinner better on a daily basis. Thank you!
